Reach a New Patient Segment

- » 7.2M consumers are actively seeking a solution to non-invasively reduce submental bulges¹
- » 67% of consumers are bothered by submental fat²

Capture the Market Opportunity

- » 22.4M patients are seeking non-invasive fat reduction¹

Achieve Treatment to Transformation™ (T2T) Outcomes with CoolSculpting Applicators

CoolCurve+™

CoolCore™

CoolFit™

CoolMax™

CoolSmooth PRO™

CoolMini™

CoolSculpting applicators are designed to fit multiple areas of the body, allowing providers to create customized treatment plans to meet the individual needs of their patients.

NO NEEDLES. NO SURGERY. NO DOWNTIME.

In a recent CoolMini™ applicator clinical study where patients received submental treatments:¹

- » 83% of patients were satisfied with their results
- » 7 out of 10 patients found the procedure comfortable
- » 8 out of 10 patients would recommend the procedure
